Landscape photographer Craig Hergert releases an impressive collection of panoramic images in a new fine art hard cover photography book titled: *Montana Panoramic, Volume I: 1997-2007*.

Hergert's large format wide open views of Montana have now been combined into a "best of" collectors edition book. This compilation represents his 10-year quest to fulfill a yearning to be out in the great wide open spaces of Montana and share this vision with the world. The technically innovative images not only strike the viewer with a place in time, but also amaze in the sheer complexity and beauty in a world of new photographic technology. This stunning collection of very unique panoramic photographs truly captures the Big Sky state in a way that is unparalleled.

The gold foil stamped, black linen covered book includes 210 pages with 130 Panoramic color plates, with 114 detail photos from the Bozeman area and Southwest Montana. Opening up to a wide 28" view, the book also includes selections from the Billings area, Yellowstone, Glacier and Grand Teton National Parks, Missoula, the Flathead Valley and selected shots from the Northwestern, Central, and Eastern parts of the state. From city-scapes and historical documentation, to wilderness areas and immense landscapes, this book is a must read for anyone who has ever experienced, or would like to experience the big wide open spaces of Montana.

Montana Panoramic Volume I: 1997-2007
